EVERY FRONT A UNIQUE ONE-OFF

Involved here is a surface with a special-effect lacquer finish which is largely produced by hand. Differences in the sanding pattern or shading, possibly having the effect that the colour shade appears to vary across the front, are no coincidence, but are desired and intended. Solely this method of working and application lends your furniture its unique character and charisma.

XM worktops

- Decorative high-pressure laminate with durable, electron-beam hardened surface and polished reverse side.
- Super-matt texture for the front and worktop with all the quality features and standard values for high-pressure laminate (HPL).
- Comfortably warm, velvety soft feel, inviting touch.
- Impervious to finger and grease marks, for visual appeal in everyday use.
- Optimum ease of cleaning for effortless removal of everyday soiling, above all stubborn grease stains.

Important:

In order to enjoy your XTreme kitchen surfaces for as long as possible, we advise you to observe the following instructions:

- Fine, extra matt surfaces are delicate. The texture itself cannot prevent scratches
- Especially with darker decors mechanical stress can leave behind visible, unsightly marks

Signs of wear, caused for example by unglazed porcelain or cutting on the worktop, do not constitute grounds for complaint.
